

10-22kVA Range

The **FG Wilson** fully weatherproof sound attenuated (SA) enclosure reduces sound levels to comply with the new European Community regulations 2000/14/EC which became effective on 1 January 2002.

These enclosures incorporate internally mounted exhaust silencers and are of extremely rugged construction in order to withstand the rough handling common on many construction sites. The panel is viewed through a hinged perspex window.

Modular Acoustic Enclosure

Highly Corrosion Resistant Construction

- Stainless steel locks
- Black zinc die cast hinges on gullwing doors tested and proven to withstand extremely corrosive conditions
- Zinc plated or stainless steel fasteners and hinges
- Body made from steel components pre-treated with zinc phosphate prior to polyester powder coating

Excellent Access for Maintenance

- Top hung gullwing doors
- Hinged and lockable end panels
- Radiator fill access through radiator end panel
- Lube oil drain piped to exterior of the canopy

Security and Safety

- Perspex control panel viewing window in a lockable access door
- Emergency stop button mounted on canopy exterior
- End panels secured by internal latches with safety retainer
- Cooling fan and battery charging alternator fully guarded
- Fuel fill and battery can only be reached via lockable access doors
- Exhaust silencing system enclosed for operator safety

Transportability

- Tested and certified single point lifting facility
- Pallet truck and forklift truck pockets

Optional Features

- Lockable vandal proof control panel cover in place of window.
